

## Enrollment

Headcount enrollments (“HC”) for Bloomington, IUPUI and Regionals of the University for the fall semester are shown in the following table.

**Total Official Headcount Enrollment by Campus <sup>1,3</sup>**

| <b>Fall Semester</b> | <b>Bloomington</b> | <b>IUPUI <sup>2</sup></b> | <b>Regionals</b> | <b>Total Enrollment<br/>IU Campuses</b> |
|----------------------|--------------------|---------------------------|------------------|---|
| 2016                 | 43,698             | 29,804                    | 21,683           | 95,185                                  |
| 2017                 | 43,710             | 29,791                    | 21,197           | 94,698                                  |
| 2018                 | 43,503             | 29,579                    | 21,162           | 94,244                                  |
| 2019                 | 43,260             | 29,537                    | 20,781           | 93,578                                  |
| 2020                 | 43,064             | 29,390                    | 20,082           | 92,536                                  |

<sup>1</sup> As of fall 2017, Indiana University changed official census enrollment to exclude high school students who are taking college courses simultaneously, which is referred to as dual credit. This change affected Bloomington and Regionals. The IUPUI campus uses a program referred to as Special Programs for Academic Nurturing (“SPAN”), in which high school students pay full price and are and will continue to be reflected in census. In preparation for the dual-credit enrollment process change, prior years’ data through fall 2016 used a more generic definition which excluded all high school students. Fall 2016 exclude high school students and fall 2017 forward excludes Advanced College Program (“ACP”) students.

<sup>2</sup> Beginning in fall 2018, IU included IU Fort Wayne in IUPUI and Enrollment IU Campuses enrollment statistics consistent with how the satellite campus IUPUI-Columbus has been reported.

<sup>3</sup> Regionals and Total Enrollment IU Campuses data prior to fall 2018 does not include the Fort Wayne Campus. Before the realignment on July 1, 2018 Fort Wayne students could take IU related coursework with 6,104 students showing within total headcount enrollment for 2017, which are no longer shown above. Total Enrollment IU Campuses reflects only IU students and IU administered campuses.

## Enrollment

Projected headcount enrollments for Bloomington, IUPUI and Regionals of the University for the fall semesters are as shown in the following table.

| <b>Projected Headcount Enrollment by Campus</b> <sup>1, 2, 3</sup> |                    |              |                  |                                     |
|--|--------------------|--------------|------------------|-------------------------------------|
| <b>Fall Semester</b>   | <b>Bloomington</b> | <b>IUPUI</b> | <b>Regionals</b> | <b>Total Enrollment IU Campuses</b> |
| 2021   | 43,290             | 29,589       | 19,689           | 92,568                              |
| 2022   | 43,783             | 29,730       | 19,426           | 92,939                              |
| 2023   | 44,546             | 29,896       | 19,273           | 93,715                              |
| 2024   | 45,772             | 30,300       | 19,311           | 95,383                              |

<sup>1</sup> The projections presented in this table were prepared based on the Fall 2020 Enrollment Study. No representation can be made as to the ability of the University to achieve these projections. See “COVID-19 Pandemic”.

<sup>2</sup> The figures shown within the Total Official Headcount Enrollment by Campus table were used as the basis for the Fall 2019 Enrollment Study.

<sup>3</sup> Indiana University did not historically estimate IU students at the Fort Wayne campus. However, due to more direct administration of certain programs (e.g. Nursing, Dental Education, Medical Imaging, and Social Work) beginning in fall 2018, IU includes IU Fort Wayne in IUPUI and Enrollment IU Campuses enrollment projections for the above mentioned programs.

## Enrollment

The following table sets forth the total official and projected headcount enrollment of undergraduate and graduate and professional students, combined for all campuses, for the fall semester of the years indicated. The table also includes full-time equivalent enrollment and fiscal year credit hours taken.

| <b>Undergraduate and Graduate Headcount Enrollment, Full-Time Equivalent Enrollment and Total Fall Credit Hours Taken</b> |                                |                                       |  |                             |                          |
|---|--------------------------------|---------------------------------------|--|-----------------------------|--------------------------|
| <b>Fall Semester Actual<sup>1,3</sup></b>   | <b>Undergraduate Headcount</b> | <b>Graduate &amp; Professional HC</b> | <b>Total HC Enrollment IU Campuses</b> | <b>Full-Time Equivalent</b> | <b>Fall Credit Hours</b> |
| 2016  | 75,030                         | 20,155                                | 95,185                                 | 82,093                      | 1,199,662                |
| 2017  | 74,606                         | 20,092                                | 94,698                                 | 82,127                      | 1,200,258                |
| 2018  | 73,738                         | 20,506                                | 94,244                                 | 81,870                      | 1,196,030                |
| 2019  | 73,128                         | 20,450                                | 93,578                                 | 81,430                      | 1,189,828                |
| 2020  | 72,047                         | 20,489                                | 92,536                                 | 80,559                      | 1,177,271                |

| 2021  | 71,809                         | 20,759                                | 92,568                                 | 81,602                      | 1,176,544                |
| 2022  | 72,266                         | 20,673                                | 92,939                                 | 82,047                      | 1,183,394                |
| 2023  | 72,992                         | 20,723                                | 93,715                                 | 82,888                      | 1,195,879                |
| 2024  | 74,675                         | 20,708                                | 95,383                                 | 84,463                      | 1,219,554                |

Source: University Institutional Research and Reporting

<sup>1</sup> Fall 2016 excludes high school students and fall 2017 excludes ACP students. This affects Undergraduate, Enrollment IU Campuses, Full-Time Equivalent and Fall Credit Hours.

<sup>2</sup> The projections presented in this table were prepared based on the Fall 2020 Enrollment Study. No representation can be made as to the ability of the University to achieve these projections. See "COVID-19 Pandemic".

<sup>3</sup> The figures shown within the tables for fall 2015 through fall 2018 were used as the basis for the Fall 2019 Enrollment Study. The Fall 2019 Enrollment Study projects FTE enrollment in accordance with the Indiana Commission for Higher Education definition treating all doctoral, professional, or master's seeking students as graduates taking a standard course load of 12 credit hours per term. IU's official term enrollment reports treat professional-practice graduates as taking a standard course load of 15 credit hours per term and professional-research graduates as taking a standard course load of 12 credit hours per term.

# Enrollment

Students participating in online education are included in the section Student Enrollment presented above for which they are reported under their respective enrolled campuses. The following table shows the online participation over the past five years.

**Total Students Enrolled in Distance Education <sup>1</sup>**

| Fall Semester | Bloomington Headcount | IUPUI Headcount | Regionals Headcount | Total HC Enrollment IU Campuses | Full-Time Equivalent | Fall Credit Hours |
|---------------|-----------------------|-----------------|---------------------|---------------------------------|----------------------|-------------------|
| 2016          | 6,199                 | 10,591          | 10,110              | 26,900                          | 8,794                | 126,570           |
| 2017          | 7,490                 | 11,179          | 10,596              | 29,265                          | 9,694                | 139,557           |
| 2018          | 7,814                 | 11,620          | 11,209              | 30,643                          | 10,348               | 148,722           |
| 2019          | 8,537                 | 12,209          | 11,474              | 32,220                          | 10,861               | 156,153           |
| 2020          | 40,078                | 26,072          | 18,048              | 84,198                          | 55,517               | 815,222           |
